

to have it at '95. Now granted, if Senator Byars is correct, and he very well may be correct that they're not able to do it by '95, we certainly adjust that at that point, but it gives us a chance again to look at the picture, call people in, see where we're at and then make adjustments at that point but keep the fire on to get it done. So I would suggest that we defeat the committee amendments and then we add the reporting part of it in and we should be in, I think, in concert and we would move the bill. Procedurally, I think that would be the best way to do...to handle it.

SENATOR CROSBY: Thank you, Senator Bernard-Stevens. Senator Pedersen.

SENATOR PEDERSEN: Madam Chair, members of the Legislature, I have just a couple concerns. Being on the Transportation Committee, I agree with Senator Pirsch, we did work long and hard on this. There are some counties people, some counties that some of you represent that don't want on this at all. They absolutely do not want on this and I think they're going to buck real hard about being forced into it right away. I'm real afraid again that we're moving too fast. One of my biggest concerns is the Department of Motor Vehicles says that they're going to have to have \$259,747 to do this in the time frame without this, without these committee amendments. They're going to have to bring on some part-time help and I might add their part-time help is going to work one quarter of the time that our full-time help does, but do as much work as our full-time help does. Just some concerns in this area. If we move too fast, I think it could end up costing us, in the long run. There's also been no consideration given to the possibility of combining some counties down the road instead of putting everyone, computerizing every county. There is some possibility of that. I think there would be some money savings in that. Areas that need to be looked at, I'm just real concerned that we're moving too fast and that was one of the reasons for the committee amendments. I'm going to support the committee amendments. Thank you.

SENATOR CROSBY: Thank you, Senator Pedersen. Senator Moore. Senator Moore waives off. Senator Byars.

SENATOR BYARS: Thank you, Madam President. I think some good discussion has been had on this subject. Certainly, I don't think it's the intention of the members of the Appropriations
